SUMMARY OF MESSAGE

Tonight we are finishing our series “IDK.” We have been talking about some big topics that usually cause some doubt or questions around faith. Tonight is one of the biggest questions and topics when it comes to causing questions or doubt. We will be talking about pain and suffering. So many students have already experienced pain in their life and it can leave them wondering why a good God would let a bad thing happen. This question usually creates tension around God’s goodness or God’s existence. Our goal is to explain the origin of pain and suffering and show God’s true nature when it comes to this topic. While we won’t be able to answer all the individual scenarios on stage we at least want students to have a healthy understanding of God’s role in pain or suffering.

QUESTIONS FOR SMALL GROUP

1. When is a time that you experienced pain or suffering?
2. How has this topic made you question God?
3. What conclusions have you come to about God when it comes to pain or suffering?
4. Is there any pain in your life right now that we can help you with?
5. How can we as a group help each other when faith challenging questions or topics come up while we are in high school?
