### **SUMMARY OF MESSAGE**

As we finish our series *More Than a Night*, tonight's talk will explain what we want to create here at InsideOut. We've talked about InsideOut being a lifestyle and a movement, but this evening we're going to talk about how we can make it a *family*. We'll look at what makes up a family and challenge students to emulate that behavior at InsideOut. We'll talk about what a family is like, who is invited, and how you get in. Our goal is for students to understand that InsideOut is more than a crowd—it's a family that those who are not here yet can come and be a part of without having to fulfill some long list of things to do.
